

CONCLUSION

"In every single thing you do, you are choosing a Direction.

Your life is a Product of Choices.

We make our Choices and then our Choices make Us."

The choice of Cadets Training Wing in 10+2 Technical Entry Scheme at the beginning will decide almost 75% of the applicant's future in Indian Army. The post-training commissioning as an Army Officer into various Arms and Services of Indian Army will depend on the CTW chosen beforehand. Majority (Two-Third) of the trainees selecting Cadets Training Wing at College of Military Engineering will be getting commissioned into Corps of Engineers, apart from One-Third going into other arms & services of Indian Army. Hence, correct choice of CTW at the beginning is extremely important. Corps of Engineers is an extremely versatile combat support arm with *Sarvatra* as its motto, and it offers multiple avenues for its officers in their career.
